**Substitute Aqua Veta™ for:**

**SURFACTANTS**

**WETTING AGENTS**

**EMULSIFIERS**

**ADJUVANTS**

**CROP OILS**

**RAIN FAST**

**SPREADER STICKERS**

**TANK CLEANERS**

**USAGE RATES:**

**2 ozs / acre or 32 ozs / 500 gal H<sub>2</sub>O**

THE MOST EXPENSIVE  
**SPRAY**  
IS ONE  
THAT **FAILS**

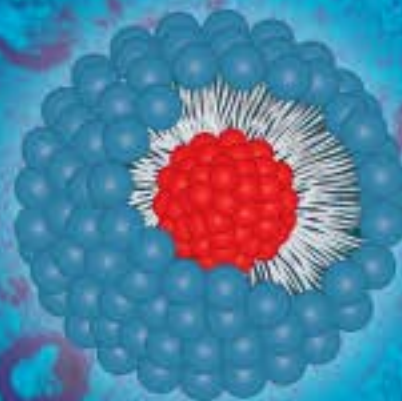

TO ACCOMPLISH THE PURPOSE  
FOR WHICH IT WAS APPLIED

# Testimonials

**Aqua Veta™** is a highly concentrated liquid catalyst which benefits from a proprietary manufacturing process and ingredients needed to form a unique silicone colloidal particle or SCP. This particle acts as a powerful antioxidant for organic substances and under proper conditions, helps reverse polarity and can serve as an oxidizing agent.

A key point of silicone colloidal particles or "SCP's" is a negative surface charge which attracts water molecules forming elongated and circular chains. These chains increase surface tension attracting more water molecules. Because most chemical reactions require water, **Aqua Veta™** creates a more biologically active environment for these reactions to occur more rapidly and efficiently.

**Aqua Veta™** altered water is not a nutrient, but a vehicle by which nutrients are carried. Water which has been altered by Aqua Veta becomes a catalyst, teaming with the patented Micelle.

The activity of Micelle type Catalyst Altered Water is a combination of the altered structure of water and the electro-magnetic field of the Micelle, not simply one or the other, rather both.

The Micelle is an extremely small particle that is 10 to 100 times smaller than the water molecule. Micelle has both Hydrophobic (water repelling) and Hydrophilic (water seeking) properties. It is a high energy particle with a powerful magnetic field. As a catalyst, the Micelle can speed up a chemical reaction without changing the natural end result.

**Aqua Veta™** treated water becomes wetter, more reactive, and more efficient; yet totally safe.

OUR FARMS HAVE BEEN SPRAYING **AQUA VETA™** FOR MOST OF THE GROWING SEASON. IT HAS WORKED WELL FOR PERFORMANCE IN THE FIELD AND ALSO AS A CLEANER IN THE BULK WATER TANKS. I LIKE THE FACT I DON'T HAVE TO PUT LOADS OF AMS IN THE SPRAYER, AND IT TAKES A LITTLE AMOUNT OF **AQUA VETA™** TO MAKE A BIG DIFFERENCE. I'VE HAD VERY FEW ISSUES WITH MY SPRAY NOZZLES SINCE USING **AQUA VETA™**. THIS IS A GREAT ALL AROUND PRODUCT.

- **AP FARMS**, MID MISSOURI

WE HAVE SEEN VERY POSITIVE RESULTS WHILE USING **AQUA VETA™** ON OUR DRY LAND ROTATION FARM IN COLORADO. I HAVE DROPPED THE BANVEL / 24D MIX, AND GOING WITH **AQUA VETA™** AND 24OZ OF 6LB ROUNDUP ONLY. I AM SEEING RESULTS WITH **AQUA VETA™** IN 2-3 DAYS THAT USED TO TAKE A WEEK. SO FAR I HAVE NOT SEEN ANY ESCAPES OF ROUNDUP® RESISTANT WEEDS. I PREMIX **AQUA VETA™** IN MY HOLDING TANK AND ALGAE GROWTH HAS GONE TO ZERO. I HAVE BEEN SPRAYING FOR 40 YEARS AND THIS IS THE BEST ADDITIVE THAT I HAVE EVER SEEN.

- **MORRISON FARMS**, SNYDER, CO

**AQUA VETA™** IS EFFECTIVE AND SAVES US MONEY ON SURFACTANTS - WETTING AGENTS - EMULSIFIERS PLUS KEEPS OUR TANKS AND TIPS CLEANER!

- **CLOVER BEND FARMS**, N.E. ARKANSAS

I RUN THE VEGETABLE FARM OPERATIONS FOR THE PRISON SYSTEM IN THE STATE OF GEORGIA. WE STARTED USING **AQUA VETA™** IN OUR SPRAY PROGRAM IN 2015.

WE NOTICED THAT OUR HERBICIDE SPRAYS WITH **AQUA VETA™** WORKED EXTREMELY WELL IN KILLING WEEDS.

THE KILL REACTION TIME WAS EXTREMELY FAST. WITH **AQUA VETA™** WE WERE SEEING A KILL WITHIN 3-5 DAYS, WHERE AS PREVIOUS IT TOOK 10-20 DAYS.

ANOTHER BENEFIT OF **AQUA VETA™** IS THAT WE ARE NOW GETTING CONTROL OF ROUND-UP RESISTANT WEEDS WE COULD NOT OTHERWISE GETTING WITH OUR SPRAYS. WE TESTED OUR SPRAYS WITH AND WITHOUT **AQUA VETA™** TO PROVE IT WAS WORKING.

- **ROGERS FARM SERVICE**, GEORGIA
